personal selection*

Gentle reader, I ask you

'Why should the elegance and enjoyment of fine food and fine company be the province only of those who live in the cities of this land?

In truth it should not and therefore I believe that it is my duty to rectify this.

I have the privilege of being in a position to offer you many different savoury and sweet delights created in the kitchen by my skilled team.

Similarly, the facilities at my disposal are available for you to enjoy.

I do hope that you will be able see your way to join me and partake in one of these fine afternoon teas or at one of my very special evenings or events

With kindest regards

Lady Nadine
